

INSTALLATION GUIDANCE

Push Button Drinking Fountain Tap

B&M SKU: ID02178 Idral code: 02178

Installation sequence

- 1 Isolate the water supply and confirm the article, connection sizes and mounting arrangement against the technical specification.
- 2 Flush the supply and fit the tap securely to the fountain or bottle-filling deck using the article drawing. Provide a suitable cold drinking-water supply.
- 3 Connect the inlet without twisting or stressing the body. Keep the controls and outlet clear of surrounding surfaces.
- 4 Adjust the flow to suit the fountain bowl or bottle-filling position. The stated supply range is 1-6 bar, with 2-4 bar recommended.
- 5 Operate the control and confirm immediate shut-off on release. Check for leaks and satisfactory drainage.

Important

Installation guidance based on the product technical information. Follow the accompanying dimensional drawing and have the work completed by a competent installer.
