

INSTALLATION GUIDANCE

Water Heater Mixer Assembly

B&M SKU: ID0176 Idral code: 0176

Installation sequence

- 1 Isolate the water supply and confirm the article, connection sizes and mounting arrangement against the technical specification.
- 2 Flush the supply pipework before connecting the product. Keep debris and excess jointing material out of the waterways.
- 3 Follow the hot, cold and mixed connection arrangement in the technical drawing. Fit the assembly without stressing its tubes or unions.
- 4 Adjust the manual control while measuring the mixed outlet temperature. Confirm the intended temperature under normal supply conditions.
- 5 Restore the supply gradually, inspect every joint for leaks and check operation. Leave the product accessible for inspection and service.

Important

Installation guidance based on the product technical information. Follow the accompanying dimensional drawing and have the work completed by a competent installer. A manual mixer does not provide thermostatic temperature regulation.
